

Heating & Cooling Management

Cooper-Standard Automotive is one of the world's largest full service suppliers of valves, line, and hose systems for the regulation, control, and safety of coolant flows for cooling, heating, and a/c systems. We currently supply a wide range of standard products. Our innovative engineering teams develop unique customer design and manufactured solutions for even the most challenging engine routings and demanding performance requirements.

Features & Benefits

- ✓ Plated Steel, Aluminum and Plastic tube manufacturing
- ✓ Extended Useful Life Thermostats and Housings
- ✓ Plastic overmolded connections
- ✓ Thermostatic and Bi-metallic controlled TOC valves
- ✓ Durable high-performance crimped joints
- ✓ Unique end forms including high pressure quick connects
- ✓ Brackets and clips that are brazed, resistance welded or mechanically attached
- ✓ High tolerance, cost effective forming of rubber and plastic
- ✓ Vertical integration of all components
- ✓ Electric coolant valves and light weight brushless motor pumps
- ✓ In-house prototype and tooling capabilities

Product Portfolio

- ✓ Heater Hoses
- ✓ Water Valves
- ✓ Thermostats & Housing
- ✓ Sensors & Valves
- ✓ Quick Connects
- ✓ Radiator Hoses
- ✓ Oil Cooling Lines
- ✓ Engine Tubes & Coolant Pumps
- ✓ Coolant System Modules
